REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: The claimed subject matter in claims 5-27 is allowable because the arts of record fail to teach or fairly suggest the claimed "a method of wireless transmission of information, comprising:

a) transmitting a signal comprising a single preamble randomly selected from among a group of available preambles, at a power level;

(b) determining if number of preamble transmissions has reached a limit;

(c) determining if an acknowledgement corresponding a preamble transmission is received from a base station;

(d) if the number of preamble transmissions has not reached the limit and there has been no receipt of a corresponding acknowledgement, repeating step (a) at a higher power level and repeating steps (b) and (c);

(e) ceasing transmitting of the signal, upon any determination at (b) that the number of preamble transmissions has reached the limit; and

(f) upon any determination at (c) that a corresponding acknowledgement is received from the base station, initiating transmission of information over a wireless spread-spectrum uplink channel to the base station, as in claims 5,15,18 and 22."

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Information Disclosure Statement

2. The information disclosure statements received on May 24, 2005 and June 30, 2004 (signed but not initialed before on the office action mailed on 2/24/05) have been considered by the Examiner and the initialed copies (two) of the 1449 are attached with this correspondence.
